The right lighting can make all the difference.

What is the best light for you? Just ask EDSS.

Often overlooked, lighting is an integral part of every successful business. It creates atmosphere and enhances aesthetics. It highlights critical products and improves visibility. Well-designed lighting even increases worker satisfaction and productivity. That's why it's essential to work with an expert lighting designer on your building plans or current facility.

Energy Design Service Systems (EDSS) is a full-service lighting designer, distributor and manufacturer serving national companies. With extensive experience and knowledge of lighting equipment and systems, we create truly unique, cost-effective and energy-efficient lighting solutions. Our goal is to enhance the look and continuity of your facilities nationwide all while saving you time and money.

Our designs balance Art, Science, and budget.

Creating the ideal lighting environment will transcend the way you do business. At EDSS, we work first and foremost for you; our customer. Our goal is to provide you the most value, both in lighting design and functionality. And we accomplish this with our unique capabilities:

- **Value Engineering**

We evaluate your existing lighting plans and create an innovative, yet practical, lighting solution that will strengthen and enhance your facility.

- **Design**

We incorporate innovative cost-effective products that improve energy efficiency and reduce lighting costs. We also work to accomplish our client's distinct objective.

- **Installation**

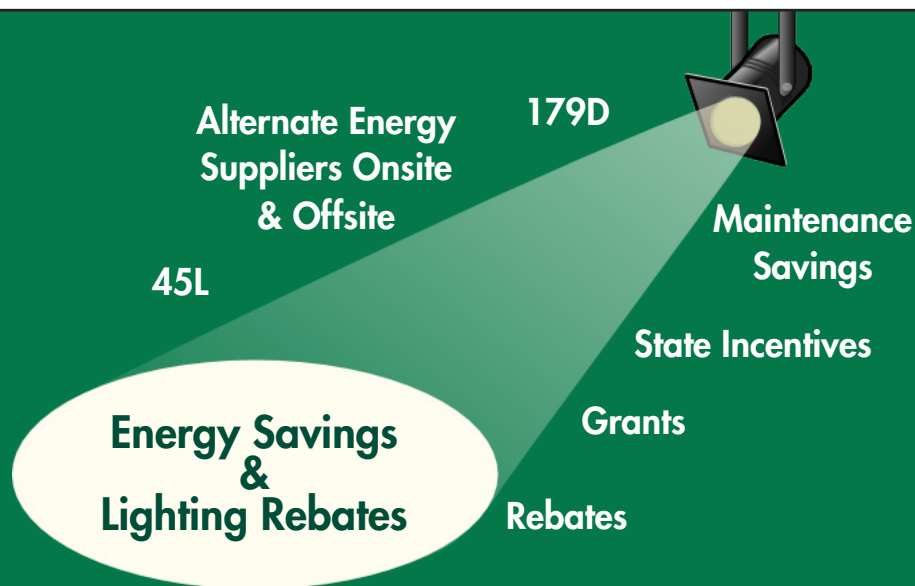

With a nationwide network of expert contractors, we ensure quick and efficient lighting installation. To ensure the highest quality, we make regular site visits and provide weekly status reports. We also guarantee our work with an exceptional extended warranty.

We help you cast shadows on your competition.

At EDSS, we focus solely on your needs, nothing more. Unlike other light organizations, we don't represent a single product or manufacturer. Our vast knowledge of lighting allows us to provide light systems from all major manufacturers. For your unique lighting challenges, we will custom-design products, including our own LED solution for commercial and residential buildings. All this enables us to create truly innovative and imaginative lighting solutions based solely on your need and vision.

With more than 30 years of experience, we provide turnkey service, and a warranty that includes labor and lamps for both large-scale and single task lighting projects. On every venture, we work with architects, interior designers, builders or owners to custom tailor lighting design to distinct needs.

Illuminating more than the easy to find incentives.

Rather than only shining the light on the incentives that are easily achievable, we specialize in finding all available incentives, even the ones that go unseen, to save you money and maximize your projects potential.

At EDSS, we can bring your business out of the dark ages, and into a new light.

Your vision is our guiding light.

Over the years, we've used our lighting expertise to help a full range of national organizations enhance their facilities and overall business, and we can do the same for you. Whether you desire a glimmering dining room, radiant showroom or sparkling theater, we have the resources, experience and knowledge to bring your vision to light.

- **Automotive Dealerships**

We help automotive retailers nationwide achieve the ideal lighting environment. Our expertise encompasses internal showroom and external site-lighting, as well as lighting for service areas. All fixtures work to heighten visual appeal and attract potential buyers.

- **Retailers/Grocery Stores**

Putting your product in the right energy efficient light can make all the difference. Well-lit rooms and aisles will help you highlight your product, and change the way you do business.

- **Restaurants**

From soft-lit candelabras to funky fixtures, we set the mood in many fine restaurants, as well as fast-food establishments. Letting our imagination run wild, we often design custom fixtures that create truly original dining experiences.

- **Stadiums and Theaters**

We bring stadiums and theaters to life with spotlights, stage lights, marquee lights and more. Our innovative designs enhance the overall architecture, as well as minimize maintenance.

- **Hotels**

Make your guests feel right at home on their stay with lighting that illuminates the lobby, adds depth and warmth to the rooms, and lights hallways for safety and appeal.

- **Academic Institutions**

Using light, we help academic institutions create exceptional educational environments. We apply our talents campus-wide, creative everything from warmly lit classrooms and dormitories to well-lighted walkways and parking lots.
